EDITORIAL, LETTER TO THE EDITOR, AND AUTHOR'S RESPONSE

EDITORIAL: Message to Universities
T. F. Lowar

LETTER TO THE EDITOR

To the Editors of Process Safety Progress
Paul Baybutt

Author's Response to the Letter to the Editor
Angela E. Summers

ARTICLES TO IMPROVE PROCESS SAFETY

Beware of the Black Swan: The Limitations of Risk Analysis for Predicting the Extreme Impact of Rare Process Safety Incidents
John F. Murphy and Jim Conter

Management Discipline
Jerry J. Forest

Continuing Our Process Safety Management Journey
Bruce K. Vaughan and Trevor A. Kletz

"Go Out and Lead": Process Safety Management
David Snodball and Ian Travers

Smaller Companies Struggle with Process Safety
John W. Herber

Process Safety Management Mentoring: Subjects to Convey and the Methods for Conveying
Clay W. Young and Keith J. Hodges

Preparing for Process Safety Management
Sheryl Goddard

ARTICLES ON RISK REDUCTION

What Risk Reduction Measures Should be Credited in Process Hazard Analysis?
Paul Baybutt

International Comparison on the Application of Societal Risk Criteria
Rubin Pubbada, Mariama Barrie, Phillip Hulmes, Philipp Großhaesede, Kobtala Melazem, Maarten Bokma, and Vijay Raghnauthan

Understanding and Developing Quantitative Risk Criteria
Jain N. Shah and Michael D. Moosemiller

Safety System Impairment and the Need to Manage Peak Risk
David K. Lewis and Fred Henscheend

The Benefits of a Risk-Based Approach to Facility Siting
Neil Probert

CASE HISTORIES

Deriving Major Accident Failure Frequencies with a Storybuilder Analysis of Reportable Accidents
Hein Jan Manuel, Felice S. Koel, Linda J. Bellamy, Martin E. Mud, and Joy J. H. Ob

A Fire in a Secondary Pharmaceutical Powder Transfer Operation
Frank Riedel

Identifying Hazards in the Chemical Research Laboratory
David J. Leggett

Study on Performance-Based Safety Spacing between Ultra-Large Oil Tanks
Meng Yifei, Zhao Dongfeng, Liu Yi, and Wang Wendong

Application of Incident Command System in Emergency Response
Qingsong Wang, Tingguang Ma, Jim Hanson, and Michael Larranaga

TECHNICAL SUMMARIES AND SAFETY AND HEALTH DIVISION NEWS

Loss Prevention in Chemical Plants: A Property Insurer's Perspective
Michael C. Polage, Mark F. Jackson, Ronald D. Mobber, and Richard D. West

Summary: Societal Risk Criteria and Pipelines
Joan M. Schrock, Elizabeth M. Lisofsky, and Steven R. Arvil

Enhancing Fire Risk Evaluations of Plant Structures Using Finite Element Analysis
Morgan Reed and Eric Peterson

Safety & Health News
John F. Murphy
